

Starter Applications Check List

◆ Motor Name Plate Data:

Operating VAC: _____
Horsepower: _____
RPM: _____
Service Factor: _____
Full Load Amps: _____
NEMA Design: _____

◆ Specifications

Speed/Torque Curve: _____
Load Curve: _____
Current Curve: _____
Safe Stall Time Curve: _____
WK² of the Motor: _____
WK² of the Load: _____

◆ Source Data:

kVA Available for Starting: _____
Source Impedance: _____
Stand-by kVA (if Generator Application): _____

◆ Application Data Focus:

Application: _____
Focus of Engineering Request: _____
